

Alvernia University engaged SBI to develop construction drawings that maximized the overall campus potential. SBI provided a design with two competition level baseball fields, including all new dugouts and backdrops with sports lighting. The planning effort allows the campus ample room for future development and expansion while providing Alvernia with top notch athletic facilities.

The project scope included:

- Athletic Facility Planning and Design
- Preliminary and Final Land Development Plans
- Vehicular and Pedestrian Circulation Patterns
- Storm Drainage and Erosion & Sediment Control
- Grading and Landscaping
- Utility Design and Site Lighting
- Preparation of Construction Documents
- Municipal Approvals

This project allowed Alvernia University to meet their short and long range plans to increase their on-campus services to their student body.
