

STACKHOUSE BENSINGER INC.
330 Revere Boulevard, Sinking Spring, PA 19608

Stackhouse Bensinger Inc. provided site and civil engineering services for the construction of a liquefied natural gas (LNG) storage tank with appurtenant equipment and an addition to the existing Control Building on the UGI Energy Services Inc. site located on Leesport Avenue in Ontelaunee Township, Berks County, PA. The improvements included construction of a 140 ft. diameter LNG tank, pipe racks and control troughs appurtenant to the LNG operation, a 1600 S.F. building addition, and two detention basin/stormwater quality Best Management Practice (BMP) facilities incorporated in the catastrophic containment dike and splash protection berm.

The Scope of Work provided by SBI included the following services:

- Site Planning and Design
- Surveying
- Stormwater Management
- Erosion & Sediment Control Design
- Grading and Landscaping
- Utility Design
- Land Development Plans and Municipal Approvals
